

TOMALES BAY MOORING PROGRAM POST MOORING INSTALLATION FORM

Note: The Tomales Bay Mooring Program requires that a GFNMS approved Mooring Contractor conduct all mooring installation, inspection and maintenance. For more information on the Tomales Bay Mooring Program and for a list of approved contractors visit: <http://www.slc.ca.gov/Leases-Permits/TomalesBay.html>. This form and any attachments must be submitted to California State Lands Commission within 30 days of the mooring installation.

1. Name of Approved Mooring Contractor _____
2. Mooring Owner's Name _____
3. CSLC Mooring Lease Number _____
4. Date of Installation _____
5. Installed Mooring Anchor Location (6 decimal points): Latitude: 38._____, Longitude: -122._____
If the mooring anchor is not installed at the approved location, then include a written explanation below.
Under no circumstances shall a mooring be installed within the Combined Mooring Exclusion Areas.

6. Please describe any changes to the mooring tackle from what was proposed in the *Pre-installation Mooring Proposal Form*, if any (please note that this includes length of chain or size of buoy or anchor). If the mooring design has changed, specify the approximate swing radius of mooring (including length of boat) and attach a revised schematic diagram of all mooring tackle currently being used.

7. The following information should be provided as attachments to this form:

- Attach a recent color photograph(s) of the mooring's visible tackle showing its relative location.

I hereby certify that this mooring meets all Tomales Bay Mooring Program Requirements and is consistent with the conditions of the CSLC lease that has been issued.

Printed name of Mooring Contractor: _____

Signature of Mooring Contractor: _____

Date: _____
